PROFILE

Fullstack Developer with 2 years of experience delivering successful results across multiple projects. Proficient in Python, JavaScript, Rust, and PHP, with a strong focus on developing efficient, scalable solutions. Experienced in both front-end and back-end technologies, ensuring seamless integration and high-quality outcomes.

PROFESSIONAL EXPERIENCE

FullStack Developer - PHP, MySQL, JavaScript   02/2024 – present
SICAP VIP

I was part of the team responsible for implementing new features and updating components of a financial cashier system, ensuring compliance with regulatory requirements for a financial entity in Mexico. I used PHP and JavaScript to optimize the system's operations, achieving a significant improvement in processing speed and user experience. My contributions led to overall system performance enhancements, resulting in a more efficient and agile service.

Web Developer - Astro, React, TailwindCSS   01/2024 – present
Freelancer

I have freelanced on projects, specializing in building responsive, user-friendly pages and high quality with React, Astro, and TailwindCSS. I autonomously developed solutions for businesses and event announcements, including interactive features like guest list management through forms. Tools I have used include Supabase and Express for backend support, ensuring seamless user experience and functionality.

Junior Developer - Django, Python, JavaScript   01/2023 – 02/2024
CISI SOLUCIONES

Led the modernization of a web application in the financial loan sector using Django to enhance functionality and design. My role included backend and frontend development, database management (MySQL), and automatic PDF report generation. I implemented predictive models with Pandas and Sklearn, designed an intuitive interface using Bootstrap and JavaScript, and customized styles with CSS and Vanilla JavaScript to optimize the user experience.

EDUCATION

Bachelor's Degree in Computer Systems Engineering   2019 – 2023
Universidad de Guanajuato

SKILLS

Frontend
JavaScript, TypeScript, React, Astro, TailwindCSS, Bootstrap, HTML, CSS

Backend
Python, Rust, PHP, Django, ExpressJS, PostgreSQL, MySQL, MongoDB, JWT

Tools
Linux, Git, Docker, NodeJS, Bash, Clean Code

Soft Skills
Effective Communication, Problem Solving, Continuous Learning, Teamwork, Attention to Detail

Languages
Native Spanish and English
